REVOLT IN INDIA.

Another Native Uprising Caused by British Oppression.

THE RULER OF MONTENEGRO IN BAD ODOR IN RUSSIA.

His Daughter Not to Wed the Czarowitch—Historical Church Building Dedicated in Paris—Imposing Ceremonies—The Week's Theatrical Events in London—Gleanings From Europe's Capitals.

LONDON, June 6.—Once India comes the news of another uprising, this time in the state of Kencjahr, where the rebels have swept everything before them, robbed the treasury of the Maharajah, and prepared to defend themselves against British interference. The scene of the rebellion is strictly local in its character, and is believed not to be formidable. The cause of the outbreak appears to have been the conduct of the Maharajah, who, in order to prevent his subjects from being taxed excessively, partly in order to pay the tribute to the English and partly for his own enrichment. He has also added to the discontent by receiving a large sum of money from a foreigner, giving great offense to the orthodox Hindoos.

The Senaputti of Manipur, who is considered responsible for the killing of Commissioner Young, and who has been put on trial before a court-martial composed of leading British officers. His fate is settled in advance, the trial being merely a formality. He will probably be hanged, a punishment which he deserves, his crime being a wilful attempt to make a sensation in India.

ON MONTNEMER'S SUMMIT.
IMPOSING DEDICATION OF THE HISTORIC CHURCH BUILDING.

PARIS, June 6.—The Archibishop of Paris, assisted by the Cardinals of Lyons and the bishops of Vence, Orange, and Châlons, have opened the magnificent Basilica of Sacre Coeur on the summit of Montmartre. The work, which was initiated as a votive offering after the Franco-Prussian war, has occupied seven years in the building.

The structure is one of the most beautiful churches in Europe, the narrow and dirty streets and alleys give place to spacious and airy boulevards, and henceforth it will be a place of pilgrimage like Lourdes. A host of English, American and Irish bishops and many Senators, Deputies and other notable persons signed at the archbishop's residence.

The ecclesiastical ceremony was extremely interesting. The music was contributed by opera artists, who sang to the accompaniment of the organ, harps and violins. A splendid defile was made in the processions, the chief of which was the Vienna Philharmonic Orchestra, and will include a performance of "Don Giovanni." Illuminations in the gardens, with a male voice choir in the open air, and bands will add to the enjoyment of the numerous musical enthusiasts who are expected to be present.

GENERAL FOREIGN.

THE GUATEMALAN CABINET—GERMANY WATCHING FOR MEXICO.

CITY OF MEXICO, via Tegucigalpa, June 6.—Advises received here to-day that all the members of the Guatemalan Cabinet with the exception of Señor Anguina, Minister of Foreign Affairs, remain at their posts and that the cabinet has accepted the resignation of Señor Anguina. It is now an accepted fact that Gen. Francisco Menéa will be appointed Minister of Finance.

WATCHING PORTUGAL.

BERLIN, June 6.—The German Government is watching with the closest attention the events in Portugal, and is likely to believe that the French Republic has an ulterior design in according political sympathy and financial aid to the Portuguese at this juncture.

The French officials that France is not neutral, that Portugal is to be used as a means for the proclamation of the Republic, an event which would probably be followed by the establishment of a Spanish Republic also.

SUGAR BEET PLANTS.

PARIS, June 6.—The latest advices from the European sugar beet zone show that the conditions are very weather, and developing the year uniformly in all districts. The plants now have an encouraging appearance despite lateness of the season. There has been a recovery in prices since the beginning of the year, and due to the fact that there is no pressure to sell and that the tenders for June delivery are below expectations.

FOREIGN GLEANINGS.

A Vienna correspondent says that at least a dozen persons were killed in the recent thunderstorms.

It is stated that the directors of the Bank of England have published a statement of the Baring Bros.' liquidation for six months.

THE DEATH OF LEOPOLD HASNER, BUREAU OF THE NEW YORK TIMES.

BOSTON, June 6.—A morning paper contains a statement that Capt. W. B. Miller, a man of New York, a large sum of money.

Miller was an employee of Dean's years ago when Mr. Dean was a successful steamboat man of this city. Subsequently through the influence of his employer he became a partner in the firm of Leavenworth & Miller.

At present he is a lawyer in Boston.

He was born in 1845 and died on June 5.

He was a member of the Boston Bar.

He was a member of the Boston Bar.</

ILLINOIS LEGISLATURE.

Saturday's Session Proves to Be a Dull One at Springfield.

SPRINGFIELD, Ill., June 6.—This was a dull day in the Legislature, and the second Saturday session of the term was held. The Senate did not meet, and the work in the House was on appropriations. The proposition to purchase land for the Deaf and Dumb Institute at Jacksonville, and for the building of a new school for the blind, were voted down. The Northern Hospital for the Insane was rejected, and the items for the Soldiers and Sailors' Home at Quincy, and for \$25,000 for repairs on the Illinois and Michigan Canal were sent to the Senate. A number of appropriations bills were advanced on the calendar. The Senate has appointed Senators Matthews, Kerick, Bass, Shumway and Farmer as members of the Conference Committee on the ballot reform bill.

In Attending the Races.

The Lindell Railway, Washington Avenue "Yellow Line," is the most direct one to the Fair Grounds, landing passengers at the Clubhouse and grand stand.

To Support Miss Cousins.

CHICAGO, Ill., June 6.—Eliza A. Martin, Dr. Frances Dickinson and other Chicago professional and business women yesterday issued a statement declaring that the cause for the World's Fair Board of the Daughters of the American Revolution was not merely in Miss Phoebe Cousins' own behalf, but to preserve the existence of the board itself. A fund has been raised, with Catherine Waugh McCulloch as treasurer, to help the board. Mrs. Black and Robert E. Rose have been retained to take charge of Miss Cousins' case.

AMUSEMENTS TO-NIGHT.
SCHNAIDER'S GARDEN.—"The Beggar Student."

Weather forecast for twenty-four
hours, beginning at 8 a. m., to-day,
for Missouri: Showers, with local
storms; stationary temperature.

Weather forecast for twenty-four
hours, beginning at 8 a. m., to-day,
for St. Louis: Clearing to-night;
slightly cooler.

The brightest companion for to-mor-
row's leisure hours will be the SUNDAY
POST-DISPATCH.

The work of canvassing the city for the
fall festivities is progressing, but citizens
cannot do too much to accelerate it.

The Council started out right on the
Bensiek-Kicker outrage, but apparently
lacked the nerve to stick to the proper
course.

ST. LOUIS is the railroad center, the river
navigation center, and the most central
point between the competing seaports of
the United States.

The child who was recently born with-
out eyes is undoubtedly an extraordinary
freak of nature, but not more so than a
President's son born without brains.

PROMISES the appropriation bill is de-
layed by an attempt of Councilman BEN-
SIEK to force the Street Commissioner to
buy a spavined horse from one of his
friends.

The President should thoroughly wash
his mouthpiece with plenty of soap and
water. It has been so fouled with pro-
fanity that it is not fit for the service of a
pious Administration.

COUNCILMAN BENSIEK's attempt to
crawl out of the outrageous position he
occupies with reference to the police bill
was in keeping with his disreputable con-
duct in the whole matter.

THE public may profit by bearing in
mind that the river excursions of the
SUNDAY POST-DISPATCH want advertisers
are the most enjoyable of the season, and
that tickets may be obtained through the
insertion of want advertisements in the
SUNDAY POST-DISPATCH.

BENSIEK has been given another trial in
the police bill scandal, and it is to be
hoped for the credit of the Council that
this will be the last. If he fails to do right
this time the Council is bound to take the
bill out of his hands or plead guilty to the
charge of aiding the Kicker conspiracy.

ST. LOUIS has a prospect of brilliant
success in America, and there is a desire of
the public to have him succeed. He is
already a success in Europe, and that
success will be followed by a similar one
in America. He is a man of great ability
and energy, and will surely succeed if he
can get the support of the public.

SIR JOHN MACDONALD long ago made a
reputation as a gallant fighter, and he is
now sustainably in his struggle with
death. The aged Canadian Premier has
consistently disappointed his doctors, who
abandoned hope of his recovery over a week
ago, and have pronounced him as within a
few hours of death nearly every day. His
condition is such, however, that little fur-
ther postponement of the end can be ex-
pected.

THE unkindest cut at the Prince of Wales
comes from Pittsburgh. A lawyer there de-
fending a gambler, who sought a license to
sell liquor, reminded the judge that the
Prince of Wales gambles. The judge re-
plied that the Prince could not get a license in
his court as he considered him a bad
character. Still the Prince may conse-
nive himself with the reflection that he can get
all the liquor he wants and an opportunity
to play his favorite game in some of our
finest residences should he come this way.

THE Citizens' Committee of Fifty in
Philadelphia has taken a hand in the po-
litical and financial muddle in that city
and proposed to see that the rascals are
brought to justice.

vigorously prosecuted. What Philadel-
phia needs more than anything else, how-
ever, is for her citizens to go into commit-
tee of the whole upon the condition of
politics in both the city and State and
take a hand in firing the unscrupulous
scoundrels who manipulate the State and
city governments in their own interests
through a corrupt political machine.

A NEW FREIGHT ROUTE.

A Boston paper traces the recent cut in
transportation rates between St. Louis and
New England via Newport News and be-
tween Kansas City and New England via
Savannah to new combinations by which
GOULD, INMAN and others have obtained
control of Southern railway systems,
which they are now using as competitors
of the trunk lines in East and West traffic.
The Boston view of the matter is that this
new route shortens the railway haul some
five hundred miles without lengthening
the time en route more than a week or so
and puts Boston more on a level with New
York in the handling of Western trade.

As the cheapening element in this new
route is the water transportation, the sav-
ing of 500 miles by rail, it seems to us,
promises more to the West and South than
to either New York or Boston. If the
trunk lines can meet the cut, those cities
will of course still control the trade, and
the West will get the benefit of the cheaper
transportation. If other routes cannot
compete and the result is a total or very large
division of East and West freight to the
Southern routes, not only will the West
be benefited by the cheaper trans-
portation, but the Southern lines and sea-
ports will be built up by a very large in-
crease of business.

But Baltimore can ship direct to Eu-
rope so as to draw a large export trade
away from the more Eastern cities, why
may not cargoes go direct from Europe to
Newport News and Savannah, without pay-
ing tribute to the coasting lines and being
taxed for transhipment at New York or
Boston? The new route that can save the
cost of hauling 500 miles by rail may make
another saving on through rates from the
West to Liverpool by steering clear of the
Eastern ports. New York's big ocean
lines will of course join in the cut on through
rates, but plenty of freight will
be taxed for transhipment at New York or
Boston. The new route that can save the

William H. Sharpe Missing and Said to Be an Embezzler.

ANOTHER TRUSTED BOOK-KEEPER AND COLLECTOR SHORT IN HIS ACCOUNTS.

George Rodgers, a Supposed Burglar, Captured by the Police—Why John Maloney Didn't Appear to Prosecute Wm. Warren—Burglars on North Third Street—Local Crime.

A representative of F. E. Little & Co., 701 North Main street, called at the office this morning to demand payment of his book-keeper and collector, William H. Sharpe. An examination of the missing man's accounts showed him to be an embezzler.

A little more than six years ago Sharpe entered the employ of F. E. Little & Co., and living previously been in the service of W. S. McMann & Co., 409 Walnut street, Kansas City. He was placed in charge of the safe and vaults, and remained in this position until the fall of collections. Three days ago he disappeared without a word of warning. Yesterday an examination of his books was completed, and it was found that his savings were short, apparently as the result of the amount of the embezzlement can be made. Thus far a total of over \$200 has been discovered.

Some single man 33 years old, and was raised in Shreveport, La., which city he left more than five years ago. He is 5 feet 9 inches tall and weighs about 150 pounds. His eyes are blue and his hair and mustache dark. He is described as being of medium build. He has a number of friends in St. Louis, Kansas City, Mo., Portland, Ore., Seattle, Wash., Chicago, Ill., and Denver, Colo., to any of whom he may have gone. Descriptive circulars will be sent out at once by the Police Department.

Carried off Children and Furniture.

Aloys Steiglers was in the office of Assistant Prosecuting Attorney Estep, at the Four Courts, this morning with a peculiar plaint. Steiglers is a laborer and lives at 235 Douchquette street. It appears that when he was married, about twelve years ago, he met a woman in law office. Wm. Warren, his set of furniture, presenting it to him as a wedding gift. Nine months ago Mrs. Steiglers died, and since that time Mrs. Will has been keeping house for her son-in-law. As soon as the time-works had run the two could never agree, and quarrels were of frequent occurrence. Thursday evening they disputed with such usual bitterness, when Steiglers, who had been working on his furniture, went to the apartment of the plaintiff, Mr. Jefferson City. Thompson will serve eight years for burglary in the first degree and larceny, the two younger ones being permitted to remain. From some of the neighbors Steiglers learned that the brother-in-law, Florence Will, had gone to the country in a team cart early in the day and supervised the removal of the effects. Steiglers spent the day in North Third street. Relaford is 36 years old, 5 feet 7 inches, with blue eyes, dark hair and dark mustache.

Wahl, 14 North Seventh street, and took files, door handles, bits, wrenches, chisels and other tools, the total value of more than \$100. He was seen by John Duffy and James Carey at the time he is said to have placed the ladder against the side of the shop for the purpose of climbing through an unsecured window. He has been identified by Wahl, some time before and excused his conduct on the occasion by telling the men that he had had a scuffle with his master in the place of employment immediately after the larceny and was not seen in St. Louis until yesterday, when Officer Harry Wilson of the Central District took him into custody.

A warrant for Manslaughter.

A warrant for manslaughter in the fourth degree was issued by Assistant Prosecuting Attorney Estep at the Four Courts this morning against Herman A. Beck. The defendant is charged with having caused the death of his Master. The latter, a worker in the oil refinery, was severely injured. On last

Wednesday evening he was knocked down by Beck while in front of his house. His head struck the curbing and the concussion of the blow caused him to fall into the oil on the unsuspecting people. It is time, however, that the plans for such an affair were well advanced by two young enterprising firms which are going to test the virtue of their wares in the tract of land known as the Sunbeam Station out on the Missouri Pacific Railway.

DUNCAN COMMITTED.

He Must Answer to the Charge of At-
tempting to Kill His Wife.

LONDON, June 6.—At Carnarvon yesterday Richard Coleridge Duncan was committed for trial for the attempted murder of his wife. Duncan is the son of an Episcopal minister at Earville, Chester County, Md., and went to North Wales on a pleasure tour with his wife, whom he ran away with against her parents' wishes. Duncan had about \$100,000 in gold and diamonds which brought him to England, and having spent it all was despondent. A quarryman named Evans said he saw Duncan on May 12 last near Bala, Dyfed, in North Wales, carrying over the body of his prostrate wife, holding a huge stone in his hand. Her head was in a crevice of the rocks and was badly battered. As soon as Duncan saw Evans he ran to see the doctor, who then probably had fallen down the rocks. The rock he had in his hand was covered with blood and hair. Later Duncan told the attending physician he injested his wife's blood when he first saw her after the time he had taken a boat intending to drown himself and wife, but did not have the heart to do it. Friends in the United States are furnishing funds to defend him.

SPANISH CLUB TOURISTS.

A Trip to Old Mexico Being Arranged by the Willard Hotel.

The St. Louis Spanish Club is arranging a business excursion of its members to the principal cities of Mexico, the objects of the excursion being first, the opportunity to become familiar with the customs and methods of business, and also the pleasure of a trip covering some 5,600 miles through this country and Old Mexico. The excursion will be limited in time to twenty days, and as there are doubts many local business men would wish to send a representative along to study the outlook for Spanish-American trade, the demand for places will be strong. It is proposed to charge \$100 per day for \$15 for each person, including Pullman hotel car accommodations. The excursion arrangements are under charge of Secretary S. J. Biggart, and the traveling committee: H. J. G. Chapman, F. Harrison and D. S. Green. The Spanish Club quarters are in the Mermod-Jacquard Building.

Trunks and Traveling Goods.

The largest and best assortment of Steam, Dress, Saratoga and Gent's trunks of every description, and a full line of Suit, Alligator and Grain Leather bags and satchels, can be had at prices to suit the times, from the old reliable house of F. C. Murphy, Third and St. Charles streets.

Narrow-Gauge Brakeman Injured.

While making a coupling on the steam division of the St. Louis & Suburban Railway Company at Lakeview, yesterday morning, George Evans, a brakeman, was caught between the dummy engine and a coach, and was badly crushed about the hips. He was brought to St. Louis and sent to the Sisters Hospital. Evans is a single man, 38 years old, and boards at 3890 Morgan street. He will probably recover.

Tips Louisville & Nashville Railroad. provides Sunday excursion rates between all points, good to return on the same day. This splendid method enables city people to take a run out in the country at cheap rates. Among the most noted excursions are pleasure resorts near which might be mentioned Lincoln Lake, at Mascoutah; Queen's Lake and the Okawville Springs—the latter place is much sought by those afflicted with rheumatism and other ailments. The baths provided there are supplied in the most possible manner and with satisfactory results.

Corrigan's Row With Hankins-Latham's Coaching Hold Responsible for the Cincinnati League Club's Poor Work.

Baltimore Loses the Fourth Game to St. Louis Sporting News.

Fate was against the St. Louis Jockey Club's opening to-day. Everything indicated a most glorious opening until rain set in this week. Yesterday enough rain had fallen to make it certain that the track would be heavy and this morning there had been enough unloaded on the track to make it a certainty that it would not only be muddy but sloppy. The rain continued to fall with slight interruptions, so morning and evening at no time partially dry. There were more than enough clouds to it to relieve any doubts there might exist in the minds of anybody that the track would be watered. So wet, however, was the ground that it decided that the racing should take place. There will only be three horses in the Derby in probability, Michael, Balowgan and Col. W. H. King. Michael is poor and will not start. The others have also been a number of horses scratched in the other events. Michael sold in the auction lots last night at \$12 to St. Louis and King at \$10 to Baltimore.

It is announced that Mr. J. B. Haagin's grand mare, Firenze, the Queen of the Turf and an equal favorite with Tonny for the Suburban Handicap, broke down at Morris Park yesterday and will probably never race again.
